

Career Advancement Services

New Hampshire Employment Program

New Post-NHEP program focuses on skill-building and career advancement

Take the next step.

If you were part of the New Hampshire Employment Program (NHEP), now is a great time to take the next step in your career. The Career Advancement Services (CAS) program builds on what you learned in NHEP and helps you grow in your job to improve your financial future.

Gain new skills.

The CAS program helps you learn new skills, earn the certificates that employers look for, and get ready for jobs that are in high demand. You can also get support through job counseling, training at work, and apprenticeships that give you real experience and help you succeed in the long run.

Get help along the way.

CAS can help you handle some of the extra costs that come with going to school or starting a new job. You might be able to get help paying for things like training, certification tests, licenses, tuition, books, and transportation (like gas or car repairs).

Services include:

- Career counseling
- Help finding a job
- Apprenticeships
- On-the-job training
- Tuition help
- Books and school supplies
- Help with licenses and renewals
- Mileage, car repairs, and other travel costs
- Work uniforms
- Job skill training
- Help keeping your job
